EcoStruxure™ Power Monitoring Expert (PME)

Operator Training (PMEOT100)

Description:

This 3-day instructor-led course focuses on providing an introduction into the PME software. Through a series of presentations and hands-on lab exercises, students will learn the general capabilities of the software, with a focus on day-to-day operational tasks within the web application such as; Dashboards, Trends, Alarms, Reports, Device and User Management. Students will also receive an overview of basic EPMS and power fundamental topics including terminology, utility billing and meter selection and basic communications.

Audience:

This course is designed as an entry level training and recommended for anyone that is or will become involved with using this software as part of their day-to-day role.
